

# CATALOG FOR THE POST - HUMAN

Volume 1  
Fall/Winter 2020

Enhance your prospects. Out-perform your competition.

# Catalog for the Post-Human

Enhance your prospects. Out-perform your competition.

Since our humble beginnings in 2015, Catalog for the Post Human (CFTP) has always striven to bring you the most up to date enhancement technologies on the market. From neuro-electronics, to robotic-prosthetics, and workplace-approved pharmaceuticals, we have pioneered the integration of technology and people in the service of greater workplace efficiency and productivity. Whether you are a business owner, employee or freelancer, we have enhancement products guaranteed to give you the edge over your competition. We hope you enjoy our catalog supplement.

**Mental Augmentation .....** pg 4

**Training, Monitoring and Data Gathering .....** pg 8

## PHYSICAL AUGMENTATION

We do not choose the body we are born into. However there is no reason why we have to be restricted by it. CFTP brings you a wealth of physical enhancements to not only overcome shortcomings in hearing, vision, memory and physique, but to surpass and tailor these natural gifts.

### ExoCat

#### **Compete and get ahead of the automated class.**

ExoCat is a construction industry certified exoskeleton for heavy manual labor. Available in a range of build sizes and strengths, ExoCat enables a person of average size, muscle strength, fitness

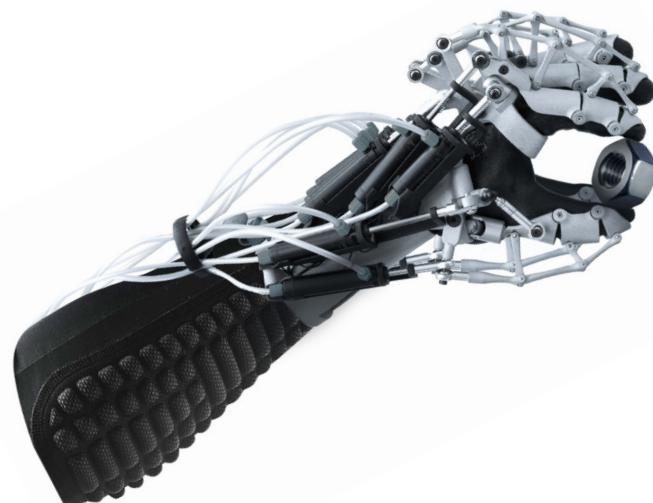

and stamina to work the long hours necessary to compete in today's construction industry. ExoCat's fatigue reducing shock absorbers and sensitive hydraulic controls make it a pleasure to embody. Follow the link on our website to arrange a test today!

### Handy Dexterity™ **Exo Hands™**

With automation sweeping all but the most complex areas of production assembly work, augmentation is a key factor in assuring job security. Handy Dexterity's cognitively integrated Exo-Hands provide augmented features such as

electromagnetic pickup for controlled magnetic attraction of ferromagnetic components, clamp holding for fast and efficient assembly operations and one extra opposable digit per hand increasing work rates by up to 75%. Kit includes two Exo-Hands, cognitive signal headset and access key to on-line training film.

## SenseAura Hearing System

**Enhance your hearing, eavesdrop on those far away.**  
SenseAura is an advanced cochlear implant hearing system that provides users with crystal clear and enhanced hearing abilities. A cochlear implant (CI) is a surgically implanted electronic device

that replaces the mechanical parts of the auditory system by directly stimulating the auditory nerve fibers through electrodes inside the cochlea. The SenseAura system includes multi-channel compression and directional microphones, which offer tailored hearing enhancements in specific situations.

No longer miss out on those important conversations with the SenseAura Eavesdropper app included with the SenseAura Hearing System.

## SenseAura Waveband Extension Kit

Kits are available to extend the audible hearing range (in most humans this is between 20 to 20,000 Hz). Hear very high and low frequencies with ease, or replace the lost ability to hear high frequencies, common in later life.

## Mouth Muffler

**With so many of us now wearing cochlear-hearing enhancements, private conversations in the workplace are increasingly difficult.** Mouth Mufflers are a fun solution to being overheard in the workplace. Simply hold the device over your mouth

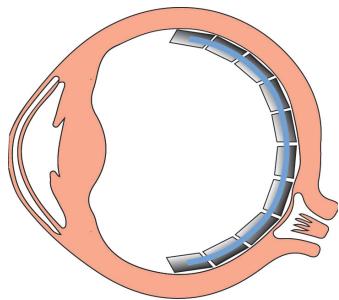

and talk in a low voice. Mouth Muffler's acoustic technology restricts the unwanted spread of sound waves, directing them forward towards their intended source. Available in different sexes and skin tones. See website for details.

Protect your private conversations from those with enhanced hearing

## UltraRed Thermal Vision Implants

Visible light exists between the 450-750 nanometer range of the spectrum. UltraRed have introduced retinal implants that enable users to see wavelengths as long

Heated surfaces are revealed

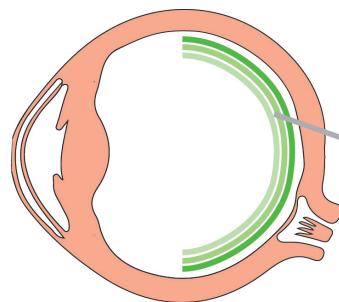

as 14,000 nm, effectively turning their eyes into thermal imaging cameras. Compulsory in Texas among firefighters, this incredible technology has many safety-based workplace applications. See our website for details.

## Lucidium Night Vision Implants

Tapetum lucidum is what allows cats to see in the dark. It is a layer of tissue behind the retina that reflects light back through the retina, increasing the light acting upon the pho-

to-receptors. Lucidium Night Vision Implants provide a layer of artificial tapetum lucidum, enabling human vision to be extended into the darkness. Already extensively used in the security industry, Lucidium surgery is fast with a minimal recovery period of 2 weeks.

Artificial tapetum lucidum layer

## AFTER

# MENTAL AUGMENTATION

CFTPH is committed to providing you and your workforce with the highest quality mental stimulants for workplace efficiency and safety. That's why we've teamed up with EnhancePharma, the premium provider of human enhancement drugs in the USA. Accept no substitutes! We're also proud to bring you Trans Cranial Direct Current Stimulation products from award-winning neuro-technology company Hed-Tek™.

## AirOxy™

How can you get your workforce to collaborate, trust each other and work together instead of undermining each other? It's not just a matter of personalities! You can affect their predilection for collaboration by chemically inducing the appropriate mind-state. Oxytocin, administered through the nasal cavity, is proven to prompt

empathy, trust, generosity, compassion and altruism.

AirOxy™ is an airborne collaboration enhancement system that enables employers, on demand, to administer a dose of oxytocin to their employees when an increase in effective teamwork is required. (Warning: Oxytocin is known to induce labor in pregnant women).

## EnhancePharma Cognitive Enhancement Drugs

Take control of your mind and its ability to stay alert, focus on tasks, make sound judgments and stay organized. Using over the counter nootropics is the new, socially acceptable way to

regulate your productivity. With their popularity increasing, can you afford not to take them? Do you work in a dangerous environment where staying alert is a life-saving necessity? Why risk the lives of your co-workers? Nootropics will give you the edge as well as the peace of mind you deserve.

**EnhancePharma  
Eugeoric (Modafinil)**  
This central nervous system wake-promoting agent is used for the treatment of excessive daytime sleepiness. Maintains alertness and feelings of well-being.

**EnhancePharma  
Euphoriant (common trade-name: Adderall)**  
This amphetamine stimulant promotes goal directed behavior and wakefulness.

**EnhancePharma  
Stimulant (common trade-name: Ritalin)**  
Taking a test? Need to perform in a meeting? Improve cortical network efficiency and memory recall.

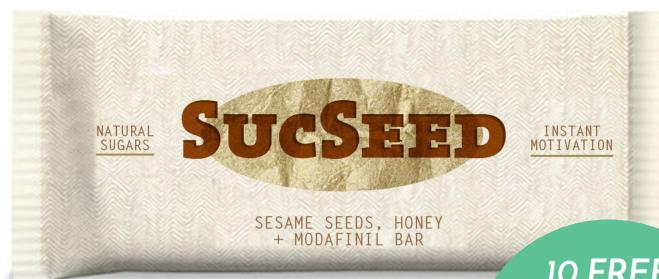

**Nootropic Extra Dark Roast Coffee**  
Take your daily "noots" in your morning cuppa with **EnhancePharma's extra dark roast nootropic coffee**. A sublimely effective concoction rich in caffeine and subtly laced with the eugeroic Modafinil for ultimate memory recall and pattern recognition.

**FLOW Cognition Optimizing Water**  
Stay hydrated and attentive with **FLOW Cognition Optimizing Water**.  
FLOW is lightly enriched with Methylphenidate for an alert and focused mind.

**SucSeed Modafinil Sesame Bar**  
Make office snacking functional with SucSeed's range of cognitive enhancing trail bars.

**EnhanceBlok™**  
Pharmaceutical over-enhancement, whether forced or accidental is just as damaging to productivity as a lack of enhancement.  
EnhanceBlok has developed enhancement drug antidote pharmaceuticals to enable the careful management of enhancement overdoses. EnhanceBlok counteracts all major brands of nootropic stimulants with a 15 minute absorption rate.

10 FREE BARS with 'FLOW' COGNITION OPTIMIZING WATER

**EnhancePharma  
Circadian Rhythm Adjustment**  
Speed through your working day and savor your down time with a regime of circadian rhythm adjusting pharmaceuticals. Control sleep patterns and optimize concentration. Sold in weekly and monthly packs.

## Rosetta Stone Memory Implants

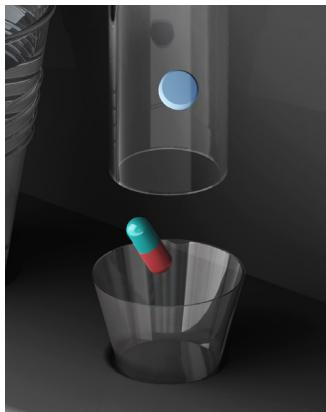

Human memory is fickle at the best of times. Research shows that workplace forgetfulness contributes to a huge reduction in performance. No longer. Rosetta Stone presents tried and tested surgical memory implants that will transform your ability to recall workplace conversations. Remember names of new contacts, recall every fact you read or hear and most importantly out-memorize your competitors.

## Drug Clock-In™

Ensure your employees are taking their enhancement meds by implementing the **Drug Clock-In™ system**.

Like conventional clocking-in devices, Drug Clock-In™ logs your employees entry and exit times, but the difference is that each clock-in card comes with an employee-specific daily dose of prescribed enhancement pharmaceuticals.

Feel assured knowing that your employees are always giving their best as soon as they walk into work.

**GET 100  
NUTRISYS  
ID CARDS  
WITH EVERY  
PURCHASE**

Keep your employees fit and healthy and ensure sick days become a thing of the past.

## NutriSys Nutrigenomic Vending Machines

Tailor your employees' nutritional and pharmaceutical intake to their workplace needs and their genetic makeup with a **NutriSys Nutrigenomic Vending Machine**.

Nutrigenomics is the study of how foods affect our genes and how individual genetic differences can affect the way we respond to nutrients. NutriSys cross-references databases of your work-force's genetic makeup with their job descriptions and provide different functional foods to staff depending on their dietary and cognitive needs.

## Hed-Tek™ Transcranial Direct Current Stimulation

Transcranial direct current stimulation (tDCS) is a technology in which low electrical currents are applied to the skull through one or more electrodes, to modulate neuronal excitability in brain areas beneath the skull. It has proven results in increasing mental flow and the skillful operation of machinery. Hed-

Tek™ offers an extensive range of tDCS products for personal and corporate use.

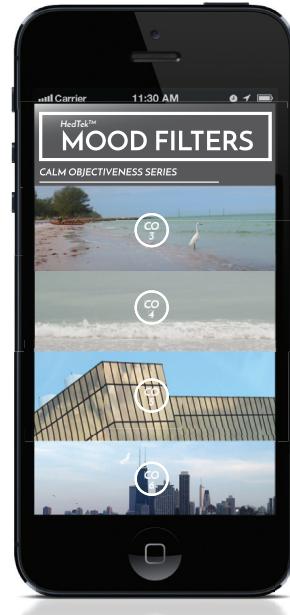

## Hed-Tek™ tDCS Headsets

State-of-the-art anodal or cathodal stimulation of the prefrontal cortex using 2 x 2 focused electrode array. IOS and Android App controls current for a variety of operational modes.

## Hed-Tek™ Mood Filters

**Mood Filters** is an amazing new app from Hed-Tek™ that allows users to plot and move through a series of preset cognitive states.

Team use of the app can transform meetings by focusing attendees toward the problem at hand and foregrounding positive thinking.

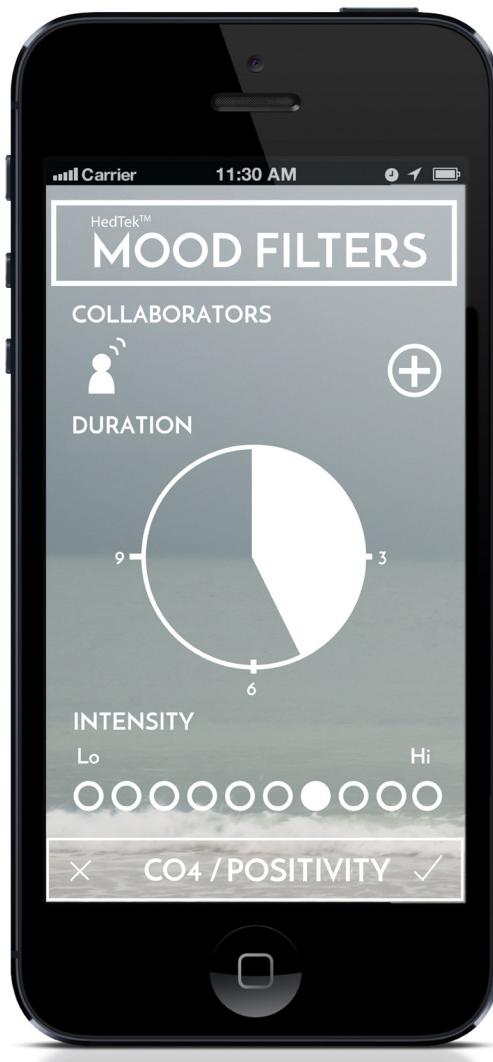

## Hed-Tek™ Productivity Warning Software Plug-In

Are you a freelancer trying to hold down multiple jobs, yet frequently find yourself diverted by displacement activity such as social media? Used in conjunction with Hed-Tek's tDCS headset, Productivity Warning is an encephalographically

controlled app, which monitors brain activity and alerts users when concentration wanes. Stay on top of your freelance workload or monitor the effectiveness of enhancement drugs with this efficiency alarm software. There is also a feature to automatically stimulate the brain with tDCS impulses in response to preset levels of brain activity.

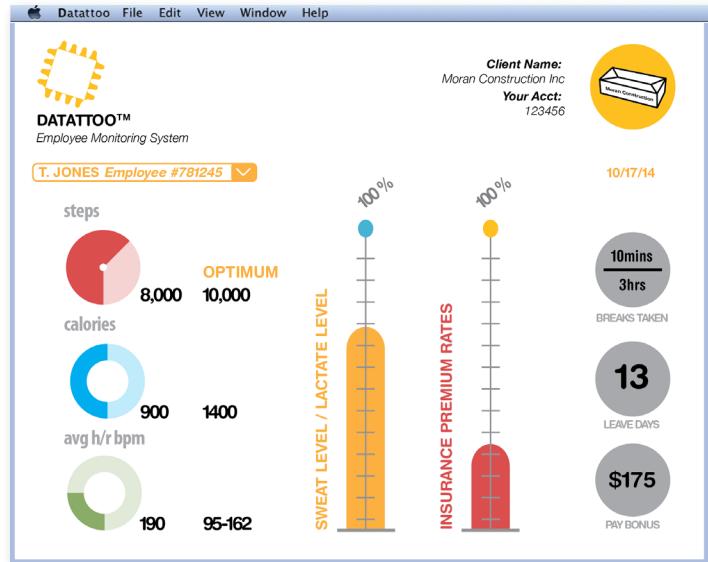

Monitor your concentration and avoid displacement activity

**DATA-TTOO Employee Monitoring System**  
**Eradicate idleness, promote healthy competition and manage incentives at work**

with **DATA-TOO's Employee Monitoring System**. Utilizing body-adapted wearable electronic tattoos, employees' physical activity

is tracked and visualized with infographic software, judging health and gauging performance. Link incentives and benefits such as health

insurance, bonuses, vacation time and promotions to immutable, hard data.

## "Enhancing Your Business" New Updated Edition

This award-winning series of training films helps you ease the often-bumpy transition from a traditional to an enhanced workforce. Subjects covered include:

Part 1: HETs and Your Workforce - Transforming Productivity  
 Part 2: Introducing Enhancement to Your Staff  
 Part 3: Addressing Dissent  
 Training for Unwilling Employees  
 Special Extra Episode: The Future of HETs - What will your Workforce Look Like in 10 years?

# TRAINING, MONITORING AND DATA GATHERING

Transitioning to an enhanced workforce, training staff, and analyzing the impacts of various forms of enhancement upon productivity and morale, are highly complex challenges for any business. Happily CFTP亨 provides a range of products and consulting services to address the enhancement ambitions of your company.

**FREE

PURCHASE.**

## Human Enhancement

### Management

### Consultancy (HEMC)

Concerned about how to introduce enhancements into your workforce? Have you suffered a backlash from uncooperative employees?

HEMC is a CFTPH approved service that will work closely with your management to plan, implement and monitor the introduction of enhancement technologies.

HEMC's staff is skilled in the ideological rhetoric of enhancement technologies, and will create tailored presentations demonstrating the long and short-term benefits to your employees. Services available include a one day Assessment of Needs event, a one week Introducing HETs package and our full 1 Month Culture Change Experience.

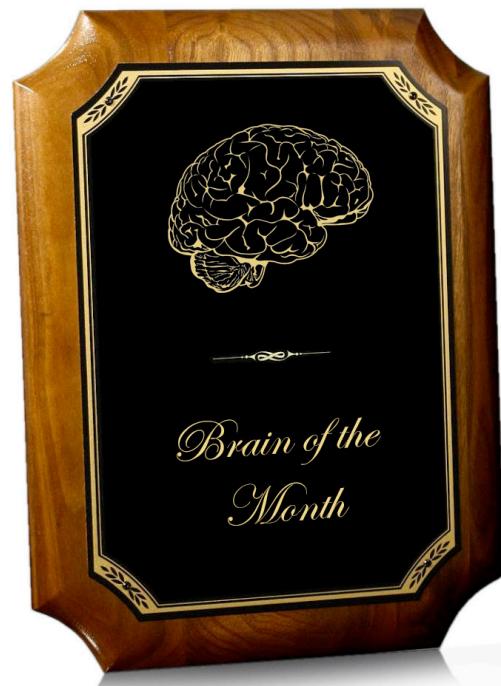

## Brain of the Month

### Awards Scheme

Replace the subjective selection of your "Employee of the Month" awards with the objective results of employee mental productivity analysis.

CFTPH offers a collection of trophies, plaques and medals for you to reward the "Brain of the Month" of your organization, encourage focus, and deter distraction.

## Attent Software

In knowledge work, maintaining mental productivity is essential to the ongoing success of your business. Through the monitoring technology of encephalography, Attent software tracks, analyses and visualizes the brain activity of your workforce, enabling you to link mental productivity directly to pay, benefits and human resource decisions. Finally technology allows your company to run a genuine meritocracy.

Track, analyze and visualize the brain activity of your workforce.

## ServSim Customer Service Training System

In an over-saturated labor market, pre-interview training is essential for success.

ServSim presents the ultimate customer service training game for high stress employment. Test your mettle in a dozen different customer service environments. Measure your voice stress analysis and test your recall of on-message prescribed language. Win official interview eligibility after 1000 hours of play.

## HET Workplace Insurance

CFTP has collaborated with the National Association for Workplace Insurers to provide an enhanced insurance program for your enhanced workforce! This comprehensive Program offers HMO and PPO options covering:

- Free employer approved enhancement surgery
- Free side-effect / rejection monitoring
- Emergency HET failure treatment / removal surgery
- Regular psychiatric monitoring

### Fair HET Use Posters

With the range of HET's now available, over-enhancement, corruption and foul play have become threats to workplace hierarchies. These workplace charts clarify the rules of ethical conduct expected of employees and allow employers to specify acceptable levels of enhancement, types of enhancement stipulated for each job role, and regulations for the use of externally sourced pharmaceuticals.

## HUMAN ENHANCEMENT TECHNOLOGIES Ethics, Health and Safety in the Workplace

**1**  
**NSFW HET BOOSTERS**  
are banned in the work place environment

**2**  
**AVOID HET based INJURY**  
No competitive gambling with the automated class

**3**  
**FAIR HET USE = FAIR PAY**  
means restricted enhancement according to pay grade.  
Do not enhance more than your supervisor

**4**  
**NO EAVESDROPPING**  
by those with cochlear implant users.  
Perpetrators will be charged with corporate espionage.

**5**  
**ENHANCEMENT BLOCKERS**  
are banned in the work place and subject to extreme disciplinary action.

Introduce the ethics of HET to your workplace and never be in fear of new unfamiliar HET legalities.

↑  
**Equality and safety starts here**

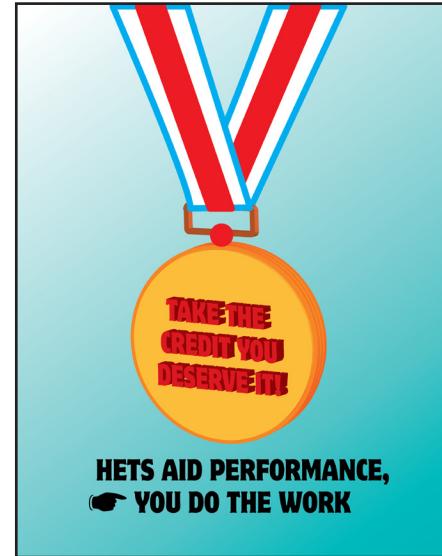

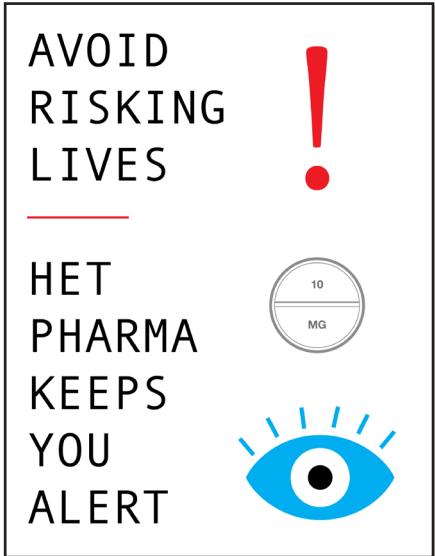

## Motivational Posters

In an enhancement driven workplace, it's the management's role to keep employees aware of their duty to take and monitor

their mental stimulant intake. Motivational posters provide a key tool in reminding employees of their pharmaceutical schedule. Poster themes available:

"Avoid risking lives - HET Pharma Keeps You Alert"  
"Stay Alert - Take Ritalin for Focus"  
"Success - It Adds Up with Adderall"

"Keep Calm and Carry Modafinil"  
"Take the Credit - You Deserve It. HET's Aid Performance but You Do The Work"

## ServSim Assembly Line Training System

Get the edge on peers and test your performance against virtual humans, and automated foes in a range of complex manufacturing assembly jobs.

ServSim Assembly Line Training System comes with a library of 3D printable components to be assembled following hand-guiding animations from a built-in overhead projector. Software is available for non-augmented and augmented hands (such as Handy Dexterity's Exo Hands).

ServSim Assembly Line Training System fits neatly on any desktop.

## **ACKNOWLEDGEMENTS**

Thanks to Jordan Morrell and Jing Ouyang

This project is supported by the Open Society Foundations' U.S. Programs Future of Work inquiry, which is bringing together a cross-disciplinary and diverse group of thinkers to address some of the biggest questions about how work is transforming and what working will look like 20-30 years from now. The inquiry is exploring how the transformation of work, jobs and income will affect the most vulnerable communities, and what can be done to alter the course of events for the better."
